

Together we can

**You are helping others... can we help you?**

## What is Funder Plus?

The Community Foundation for Surrey provides financial support and help to charities and voluntary organisations across Surrey. You are probably already aware that we can provide funding for your organisation. But did you know we can also assist your organisation in other ways?

Under the name of Funder Plus we can provide experienced volunteers to support you with advice and guidance in a range of critical business areas.

## What type of help is provided?

We have volunteers who will freely share their skills, experience and expertise. We provide support in the following key areas:

- Administration
- Finance & Accounting
- Fundraising
- Governance
- Human Resources
- IT
- Legal
- Management
- Marketing
- Commercial

## How does it work?

If you feel that Funder Plus could help your organisation, the Funder Plus volunteer will jointly agree with you the best way for assistance to be given. Where appropriate, a second volunteer with further relevant skills can be introduced.

## What does Funder Plus achieve?

Funder Plus provides short-term support to enable your organisation to become even more effective. This leads to yet greater benefits for those you help.

## How much does it cost?

Absolutely nothing. It is a free service provided by the Community Foundation for Surrey because, like you, we want to help those you support.

## How do I request a Funder Plus Volunteer?

If you would like a Funder Plus Volunteer to assist your organisation, simply email our Director of Grant-Making, Kate Peters ([kate@cfsurrey.org.uk](mailto:kate@cfsurrey.org.uk)) giving a brief outline of the support that you require. A Funder Plus Volunteer will then contact you.
